

Therapeutics Graduate Program

Please join us for an information session about the TGP. This session is a great opportunity to meet our students and faculty.

**Thursday, October 10, 2019, 5:00pm to 7:00pm
Countway Library, Minot Room, HMS**

This HILS-wide certificate program offers rigorous, multi-disciplinary training relevant to identifying and developing novel therapeutics, and applying them to improve the treatment of disease. We emphasize research both in HMS labs and in real-world internships.

All G1, G2, and G3 students in any HILS program are eligible to apply.

**All attendees are invited to stay for the TGP paracurricular activity that will be held immediately following the information session:
Student Panel about their Internship Experiences**
