

# MSKVIEW

A diversity recruitment event  
for MSK scientific laboratories

**October 29, 2018**

Join us for the second MSKVIEW, designed to provide senior-level graduate students and early stage postdocs from underrepresented groups insights about training as a postdoc at Memorial Sloan Kettering (MSK). During this one-day recruitment event, selected participants will:

- learn about the cutting-edge science being conducted at MSK
- meet MSK faculty in one-on-one meetings and roundtables
- hear from current trainees about how they decided to conduct their postdoctoral training at MSK
- receive insights on how to chart their course and navigate career development beyond graduate school and postgraduate training

Deadline to apply:

**September 21, 2018**

Apply at:

[mskcc.org/diversity-day](http://mskcc.org/diversity-day)

This year we are accepting applications from traditionally underrepresented minority trainees in biology/biomedicine, chemistry, engineering, physics and computational sciences who are:

- PhD and MD/PhD students within 2 years of defending their thesis
- PhD, MD and MD/PhD researchers interested in a second postdoc position

Limited funds are available for travel reimbursement.
