

Lunch Series with Rachel Yunck, PhD

Science Advisor, Intellectual Property Team, Womble Bond Dickinson

Dr. Rachel Yunck received her PhD in Biological and Biomedical Sciences from Harvard in 2016. While at Harvard, she worked in Dr. Tom Bernhardt's lab studying cell wall biogenesis in bacteria and characterized a novel family of cell wall hydrolases broadly conserved across bacteria. She now serves as Science Advisor for the Intellectual Property Team at Womble Bond Dickinson, where she uses her background in biotechnology to provide ongoing guidance and support to her clients. Rachel works directly with clients to evaluate and manage their patent portfolios and has experience preparing and prosecuting patent applications with the USPTO and foreign jurisdictions. She has experience in a range of disciplines relating to biotechnology, including microbiology, molecular biology, genetics, cancer therapeutics, immunotherapies, diagnostics and biomarkers, CRISPR, antibodies, and plant technology.
