

Harvard Chan Bioinformatics Core presents:

Introduction to R

*For Harvard researchers affiliated with
Harvard Medical School labs on the Quad, or the Harvard Stem Cell Institute*

This one and a half day workshop will introduce participants to the basics of using R, a simple programming environment that enables the effective handling of data, while providing excellent graphical support.

Participants will learn how to use R for:

- *exploring basic data structures*
- *inspecting and wrangling data*
- *installing & working with data analysis packages*
- *making publication-quality plots with the `ggplot2` package*

*Prior experience with R or programming *not* required*

August 20th & 21st, 2018

More information & registration link at <http://tinyurl.com/hbc-intro-r-info>

Registration fee: **\$65**

Workshop Location: **Longwood Medical Area**

*Sponsored by Harvard Medical School's **Tools and Technology Committee** (TnT) &
the **Harvard Stem Cell Institute** (HSCI)*
